To: Wisconsin Historical Steam Engine Association

From: Dairyland Farm Heritage Preservation Association

Topic: Scholarship for an Adult of a student attending Steam School

The mission of the Dairyland Farm Heritage Preservation Association is to connect people of all ages with Wisconsin's agricultural heritage through farm history education and preservation. The DFHPA strongly supports the efforts of the WHSEA to educate individuals interested in the steam hobby through their yearly Steam School event. The DFHPA is especially interested in supporting families that wish to attend Steam School together.

To that end, we at Dairyland Farm Heritage Preservation Association (DFHPA) are proposing to pay (as a scholarship) for 1(One) Parent/Adult Mentor that is attending steam school along with their child. This scholarship will also include a 1-year membership to the DFHPA, as well as a welcome packet with a variety of materials. In the event that such a pairing does not apply, the DFHPA scholarship may be extended to any youth attendee. This scholarship will be extended for a minimum of 3 (three) years. If more than one Adult/Youth pairing applies, DFHPA will work with WHSEA to choose the scholarship recipient. Scholarship payment will be remitted directly to WHSEA for disbursement.
